- Septic tank: 1700 litre

Nordic Lavatory Service Truck is a very cost-effective solution for performing toilet services for aircraft and trains. The compact truck has outstanding maneuverability, and it moves easily between railway tracks and around the aircraft.

Nordic Lavatory Service Truck is an environmentally-friendly, battery-powered vehicle. The solution developed in Scandinavia with top-quality components guarantees safe operation and an effective service performance. A highly effective filter ensures odor-free emptying.

Nordic Lavatory Service Truck may also be modified according to customer needs.

Customer Reference

Stockholm Skavsta Airport has a Nordic Lavatory Service Truck in operation.

Thomas Falkeborn, Ramp Manager, is very pleased with the battery-powered toilet service truck: "The vehicle works very well. We are very pleased with the functionality and it is also easy to maneuver out at the ramp," said Thomas Falkeborn.

Nordic Lavatory Service Truck has built-in flowmeters which automatically shuts-off at the set value of water and chemicals.

"It makes the vehicle both easy and safe to use," says Thomas Falkeborn.

An effective carbon filter ensures that the emptying is completely odorless. In addition, the Nordic Lavatory Service Truck does not emit any odor when parked indoors.

"It has greatly improved the staff's working environment and makes it easier to perform service", says Falkeborn.
